

Axess Innovations Consulting is a small, veteran-led cleared firm in Maryland. We deliver cyber operations, intelligence and mission support, data science, and software engineering at the standard the mission demands, working under the same rules as the customer.

CORE COMPETENCIES

Cyber operations

Defensive and offensive-informed cyber and computer network operations in mission environments.

Data science & analytics

Machine learning, NLP, and decision analytics for mission datasets.

Systems engineering & advisory

Requirements, architecture, RMF-aligned support, and independent assessment.

Intelligence & mission support

SIGINT, digital network analysis, target development, and all-source fusion.

Cloud & software engineering

Mission-critical software, DevSecOps, cloud-native delivery, and data engineering.

AI enablement

Applied AI and automation for analysis, search, and decision support.

DIFFERENTIATORS

- ▶ Veteran-led, with careers spent inside the intelligence mission.
- ▶ We work under the customer's rules: their guardrails, their process, their standard.
- ▶ DCAA-aligned recordkeeping and clean corporate hygiene from day one.
- ▶ Cleared bench able to staff sensitive work to TS/SCI.
- ▶ Small and accountable: the people who scope the work do the work.
- ▶ Builders first: our internal platforms are held to the same bar as client work.
